Excellent job of teaching advanced grammar in Spanish clearly By The AZIRE My friends and I have been taking Spanish together for some years and we felt like we needed a study group on grammar as well. This is the second book we tried and we really like it. The chapters are in Spanish, they are short and cover a few related concepts, and the assignments are not easy but when we check our work, if we've gotten something wrong we're able to go back and do better at figuring out the concept. We really love this book. We're up to Chapter 4 now and are planning on working through the whole book. 0 of 0 people found the following review helpful.
