McGraw-Hill GMAT VerbalBy Margaret Raleigh-CarreraThis was the first time I purchased a McGraw-Hill publication for the GMAT, so I am seeing the texts in this book for the first time and I think they're great examples followed by great explanations. In a few years when I want to update my standardized testing sources, and I buy a McGraw-Hill GMAT Verbal publication again, I better not find the same texts. This has happened to me with a three other publishers, so I doubt I will buy their books again and I will surely tell everyone else not to bother buying new books when they can get the same texts for free from older publications.0 of 0 people found the following review helpful.
