John Thomakos : Mel Bay The Drumset Styles Encyclopedia before purchasing it in order to gage whether or not it would be worth my time, and all praised Mel Bay The Drumset Styles Encyclopedia:

0 of 0 people found the following review helpful. Well put together introductory book to styles By Scoots McBoots This book is great and I am really enjoying it. It gives you a basic rundown of many different styles and approaches to the kit. The book also has a few more in depth exercise pages for some of the more prominent and popular styles. The reader is also given certain songs to listen to, which will give an example as to the context of the given style. Another thing I really liked was the emphasis on listening. A very good method and reason for listening is given towards the beginning of the book, be sure to not miss it. You should be able to use this book as a launchpad to whatever style you would like to dedicate further focus towards. So far, it is a great find and a great addition to the collection. 1 of 1 people found the following review helpful. A 'must' for the in-depth music lending library. By

Midwest Book Review John Thomakos' **THE DRUMSET STYLES ENCYCLOPEDIA** will make an outstanding reference for any aspiring drummer: it provides a basic introduction to various modern drumming styles, includes a CD to reinforce the written word, and uses simple demonstrations of melodies, blends of snare and bass, and tips on what to listen to in the music world which supports the descriptions of different styles. The result's an invigorating, educational set of modern drum styles traversing ethnic boundaries: a pick for any learning the drums, and a 'must' for the in-depth music lending library.

The Drum Set Styles Encyclopedia is a non-comprehensive introduction to essential styles and time-feels for drummers. This book and CD package features over 50 essential styles and time-feels, and is a must-have for drummers of all levels; perfect for the aspiring freelancers or any versatile-minded player.
