Five StarsBy Linda VitaleIt had enough detail and was perfect for what I needed as a first time tourist to the city.6 of 7 people found the following review helpful. Couldn't find this map in MelbourneBy PJJLWe find that if we arrive with a great map we don't need to find one - everything is on line, but to plan excursions from day one it is always good to come equipped with a map showing tram routes, etc. This one was great! And the type and text was large enough to actually make routing easy.0 of 1 people found the following review helpful. No Longer NeededBy Mary G. CorsonThis is a detailed map of Melbourne, but really it is an unnecessary purchase these days. I didn't use it the first time we were in Melbourne, and I didn't even both to bring this second time. Melbourne has a great tourist center with all sorts of free materials and assistance, plus there is a great free tourist tram around the central tourist area. Even the map we got in our hotel was totally adequate. Many people these days also have GPS on their phones.I guess I will donate it to the library book sale!

Legend includes tram/streetcar lines with stop, commuter rail lines with stop, ferry wharf/route, parks/plazas, attractions/shopping streets/markets, accommodations, churches, synagogues, points of interest, museums, police stations, shopping centres, consulates, hospitals, pedestrian streets, bike routes (off-street). Includes inset map of Melbourne Region, Commuter Rail and Melbourne Tram System. Extensive street index.
