Great buy and great price. I am a nursing student and I use this all the time. It's small and I carry it in a backpack for easy use when I'm studying. I can use my phone however I like less distractions when I study so I stick to books and keep my phone away.

Great for the price. Teachers and other medical professionals do frown on this though and may tell you it is not a reliable source. If you are going into school for anything medical related I would recommend another brand. If you are in a pinch for cash then this works okay.

Plenty of medical terms that you can learn about and it's been helping a lot with the course I'm currently taking!
