It's small and I carry it in a backpack for easy use when I'm studying. I can use my phone however I like less distractions when I study so I stick to books and keep my phone away.2 of 2 people found the following review helpful. It worksBy shopperGreat for the price. Teachers and other medical professionals do frown on this though and may tell you it is not a reliable source. If you are going into school for anything medical related I would recommend another brand. If you are in a pinch for cash then this works okay.0 of 0 people found the following review helpful.
