The Modern Meta Given's Encyclopedia of CookingBy LinnieMy mother used this cookbook for years. I inhearited her old one that I used for 4-H and my growing up years so the pages of hers was dirty, torn and written over without a back that had come off years ago. I never dreamed I would come across one in good shape like it. I still use it and love it but am thrilled to have a newer one in my collection.1 of 1 people found the following review helpful.
