Microsoft : Microsoft Encarta Thesaurus before purchasing it in order to gauge whether or not it would be worth my time, and all praised Microsoft Encarta Thesaurus:

0 of 0 people found the following review helpful. Microsoft Encarta thesaurus By Wendy Jeremie Great book to have in one's possession to which one can refer readily and easily. 0 of 0 people found the following review helpful. Easy to

useBy A CustomerThis is a superb thesaurus; very easy to use. My kids use it alot for writing reports. The Encarta Dictionary is also a must.1 of 1 people found the following review helpful. excellent for quick referenceBy Onur PoyraziI recommend this thesaurus to not only internationals but also Americans as well. Maybe this thesaurus is not enough for deep readings and writings but I believe it will meet your most needs. I suggest you to use this thesaurus with a thick and broader thesaurus, in this way if you do not find an equivalent for a particular word in this one, you can easily refer to other big thesaurus. Other than that, the most useful feature of this thesaurus is that it has not only synonyms (which most thesauri only have) but also antonyms.

Words At the Speed of TodayThe Microsoft Encarta Thesaurus is a portable guide for choosing the right word. Over 200,000 synonyms and antonyms can be accessed from a quick-reference A-Z list of more than 25,000 entries, including clearly labeled slang, informal, technical, and literary terms. Contained in a handy format, it can be slipped easily into any briefcase or schoolbag.Special features include:- Over 100 "Compare and Contrast" panels highlight the differences between over 700 words with similar meanings. Find out the difference between "beginner", "apprentice", "greenhorn", and "tyro".- Over 300 "Word bank" panels provide vocabulary lists for selected topics-e.g., gemstones, dinosaurs, aircraft, and more.- A "Test Your Wordpower" section enables users to assess their vocabulary range and verbal speed.Microsoft Encarta Thesaurus
