Five StarsBy Elizabeth MontanezGreat workbook! Love it.7 of 8 people found the following review helpful. this book sucksBy vanessai recently purchased the standard text book

and state review exam in preparation for the california state board esthetician exam. i read the entire text book and whizzed through the review book. these materials are very basic and dated. the exam here in california is very medical and i was overwhelmed with the test's terminology and structure. needless to say i failed and now i have regrets that i even purchased these middle school texts. i suggest if you're preparing for your state boards don't buy this crap and look for something more challenging and more informative. i suggest texts that specify in medical esthetics because this crap will barely get you out of esthetician school

Designed as a refresher device in reviewing factual data presented in Milady's Standard Textbook for Professional Estheticians. It employs multiple-choice type questions, which have been widely adopted and approved by the majority of state licensing boards. The review book reflects advances in professional skin care techniques, artistic use of cosmetics, and opportunities in the field of esthetics. It attempts to keep pace with, and ensure a basic understanding of cosmetics and personal care products that have been developed by manufacturers for professional use. The book serves as an excellent guide for the student as well as for the experienced esthetician. It provides a reliable standard against which professionals can measure their knowledge, understanding and abilities. These reviews will help students and professionals alike to gain a thorough understanding of the full scope of their work as they review practical performance skills and related theory. They will increase their ability to evaluate new products and procedures and to be better qualified professionals for dealing with the needs of their clients.

About the Author Joel Gerson has been called the "Master of Skin Care Education" because he is a firm believer in education; as a teacher of skin care, facial treatments, and makeup, he has developed a number of educational audio-visual teaching aids.
