Ted Weihe : Model Boats from Around the World before purchasing it in order to gauge whether or not it would be worth my time, and all praised Model Boats from Around the World:

0 of 0 people found the following review helpful. Cheaply built tourist models By Randy H. Martindale The pictures of his collection show small models from around the world. The models seem to be cheaply and poorly built--the type that can be found in tourist shops. A couple of the models are nice, the rest not so. Save your money and get a better book.

This collection of model boats is unique. I have collected professional models from authentic plans, pond boats and artisan models from over 16 countries. In my work, I have gone to 35 countries where I was able to find and buy these models as well as at vacations in Europe, Canada and the U.S. Models come from Albania, Belize, Brazil, Canada, Chile, Colombia, Croatia, England and Scotland, France, Guatemala, Holland, Kenya, Macedonia, St. Vincent and

Tobago, Far East Russia and the USA. With one exception (Lobster Boat), all of the models are sailboats or non-motorized craft. Photos and descriptions are included for each model. They are truly works of art.

About the Author For 70 years, I have sailed many types of boats - racing and cruising sailboats. I have raced catamarans, Windmills, International 14s and other sailboats across the U.S. I have cruised everywhere in the Chesapeake Bay from a traditional buyege to an Erickson 35. Now, I race small boats - historic 1939 Chesapeake 20, MC and E Scows in Sarasota, Florida. I carefully selected models that were authentic and accurate to the original sailboat during my worldwide travels.
