**Delorme : Montana Atlas Gazetteer** before purchasing it in order to gage whether or not it would be worth my time, and all praised Montana Atlas Gazetteer:

0 of 0 people found the following review helpful. The best atlas out there!By 2yorkiemamaHubby is a major geography buff. We have several of these atlases. This recent purchase of Montana is because we are thinking of

retirement. The Delorme atlas contains all of the pertinent information about the respective states you could possibly want. It is perfect for providing outdoor recreation, travel info for business or fun, and a plethora of other uses. This is the only atlas brand we purchase. Our favorite! We are having a lot of fun dreaming about our future home and all of the activities we will encounter, Lord willing. 0 of 0 people found the following review helpful. Recalculate this, Siri By Elemental I'm not a huge fan of map programs and GPS. When the SHTF, you people will be wandering around lost because Siri or Google won't be able to tell you how to get somewhere. Once you do get where you are going, I'll have already been there because I have maps. An atlas never freezes or refuses to load. If you get lost using a map, it is almost always your own fault, not a voice saying, "In a quarter mile, turn left." and in a quarter mile there's only a right turn or a river. 5 of 5 people found the following review helpful. great maps By Vincent J. Sereno I travel many of the western states partaking in a variety of outdoor activities. I use a variety of maps from AAA to national forest maps, as well as GPS. But I always include the atlas and gazetteer for the state I'm traveling in since they are accurate and have a scale and information that is very helpful. They are wonderful maps and the Montana atlas meets the grade. The only draw back I can say is that it my poor eye site requires me to use a magnifier to read the maps in dim lighting. I recommend that everyone get these atlas for their trips. You won't be disappointed.

Wouldn't it be nice to always have exactly the right kind of map, whatever your needs may be? You will, with the uniquely versatile DeLorme Atlas Gazetteer Series. These topographic atlases cover individual states with the most comprehensive detail available, including back roads, backwater lakes and streams, boat ramps, forests, wetlands, trailheads, campgrounds, public lands, prime hunting and fishing spots, and countless landmarks and points of interest. You'll also find a wealth of information on everything from family outings to wilderness adventures. The Atlas Gazetteer is ideal for outdoor recreation, business travel, home or office reference, and countless other uses.
