We have four of these maps that cover the entire area from the central Cascades all the way to Canada. These maps have kept us from getting lost in the maze that is the forest roads throughout the Cascade Mountains.0 of 0 people found the following review helpful. Probably Best Map AvailableBy Michael McClintockProbably the best recreation map available, but like all othe maps of the area, not completely up to date (e.g. the Baker Lake Resort was closed a couple of years ago). As good as this map is, it is still a good idea to check with the Ranger Station in Sedro Woolley for road conditions, campgrounds, etc.0 of 0 people found the following review helpful. Four StarsBy Tee KingHappy to have a durable hard copy of local trails for hiking.
