From Smithsonian Books : Museums and Communities: The Politics of Public Culture before purchasing it in order to gage whether or not it would be worth my time, and all praised Museums and Communities: The Politics of Public Culture:

1 of 1 people found the following review helpful. Excellent Gem of a bookBy Doris AshExcellent Gem of a bookWritten in 92 but very relevant to us now--the theory is forward thinking--and moves us from older stodgy ideas to newways of working with/in community1 of 3 people found the following review helpful. Good essaysBy AKMI

had to buy this book for a graduate museum studies course but it was well worth it. I still have the book. Although some essays are outdated, it is a good look at issues in museums.

Contributors to this volume examine and illustrate struggles and collaborations among museums, festivals, tourism, and historic preservation projects and the communities they represent and serve. Essays include the role of museums in civil society, the history of African-American collections, and experiments with museum-community dialogue about the design of a multicultural society.

From Library Journal This companion volume to *Exhibiting Culture* (Smithsonian Pr., 1991) contains a series of essays that illustrate both the struggles and the collaborations between museums and the communities they aim to serve. Despite the essay format, common themes emerge. As America makes the transition from an industrial age to an information age, museums must review and revamp philosophy, mission, practices, and services; attempt to reconcile frequently incompatible aims; and alter programming to accommodate more diverse constituencies. In this context, forming a strong communicative circle linking exhibits and viewers is seen as vital to restoring wholeness to our pluralistic cultural arena. The range of voices heard to great effect in the preceding book continue to speak out here. Strongly recommended. - Vicki Gadberry, Harris Media Ctr., Mars Hill Coll., N.C. Copyright 1992 Reed Business Information, Inc. This companion volume to *Exhibiting Cultures* contains a series of essays that illustrate both the struggles and the collaborations between museums and the communities they aim to serve. . . . The range of voices heard to great effect in the preceding book continue to speak out here. Strongly recommended. Library Journal [The editors] present a rich variety of thought-provoking ideas about the condition and possibilities of museums. The book challenges museum specialists to reassess their practices to ensure the relevance of museums in a changing world and offers valuable case studies of the kinds of problems and successes involved in making such changes. Journal of American History With a variety of case studies and perspectives in the spirit of interdisciplinary study, *Museums and Communities* is a provocative and fascinating collection, at once profound and concrete. American Book About the Author Ivan Karp is National Endowment for the Humanities Professor of Liberal Arts at Emory University and director of the Center for the Study of Public Scholarship. Christine Mullen Kreamer is an art historian working in Vietnam and an exhibit developer for the African Voices project at the Smithsonian's National Museum of Natural History. Steven D. Lavine is the president of the California Institute of the Arts.
