Robert E. Webber : Music and The Arts In Christian Worship (The Complete Library of Christian Worship, Vol 4)(Book 2) before purchasing it in order to gage whether or not it would be worth my time, and all praised Music and The Arts In Christian Worship (The Complete Library of Christian Worship, Vol 4)(Book 2):

So I hunted my online used book sources to find books 1 and 2 of volume 4. It is frustrating that I had to pay more for the 2 used volumes than I did for the rest of the set combined and new, but that's the way it goes in the book world sometimes. The books are in nice condition as advertised, and came well packaged and in good time, I was pleased. The complete set is worth the effort to get, too, it has great information and illustrations, and is very complete coverage of the subject.

The most complete set of reference and printed material available on Christian worship. These books provide a

detailed view of Christian worship and the importance it has played in the development of the Church.
