Too mature for younger kids, but lots of pages and good pictureBy EmilyFNice book with lots and lots of pages and instruments, but very advanced for a tiny child. This has lots of obscure instruments as well and common ones and my daughter often loses interest early on. BUt I will keep giving this a try as she grows older :)1 of 1 people found the following review helpful. Love these books!By Katerina DuarteLove these books and so does my 2 year old! They are even helping me learn Portuguese. I would definitely recommend them for anyone who is teaching their child a second language.

Guaranteed to enrich a toddlers vocabulary, this simple and fun series of bilingual board books is ideal for helping children discover a foreign language. Highlighting more complex concepts that go beyond colors and numbers, titles in the series feature jobs, music, opposites, and sports. This collection combines photographs, bright illustrations, and dual-language words in clear, bold text. Suitable for both individuals and groups, these books are a childs perfect introduction to exploring other cultures.
