This book is not only beautifully done but is packed with fascinating information. In reading the book with my grandson I was reminded of long-forgotten geography facts. I loved the various tabs and surprises found within the pages of this really terrific book. Any child (or adult) interested in the word of which they are a part will adore this book.1 of 1 people found the following review helpful. This book is just perfect for him since he's at the point where he wants to learn more details about landmarks/ culture and currently reads at a grade 2 level. Visually there is a lot to look at and talk about. Great find!3 of 3 people found the following review helpful. perfect for them since they love mapsBy RachelI might have been as excited about this book as my 6 8 year old nephews were. Educational and colorful, perfect for them since they love maps.

Watch the whole world spring to life! Budding geographers will love to immerse themselves in this fun, bright, fact-packed first atlas with lots of detailed illustrations.
