When I enter the code # it says it's invalid contact support. Their automated support system says to enter my course ID#.When I enter that, It again says invalid.When I try to contact their "No support" all I can find is their automated responses which are useless! So far I haven't been able to talk to an actual person to help solve this problem.1 of 1 people found the following review helpful. IT WORKSBy Julie MillerPurchased this to go with the book I also purchased. It was new and the code was new so it worked but I still suck at Spanish and this wasn't helpful for me but it was required.
